Comments	I note the revised planning application with slightly reduced capacity. The smell from the existing site already contaminates the local area & I fear something larger with more waste will not only increase the issues with smell but other invisible pollution that could affect our local community for years to come. There is already a large incinerator being built in Horsham, a short distance away & one in Shoreham with a large incinerator also in Portsmouth. Do we really need another so near by? The traffic issues here are some of the worst I've ever seen & the roads are not suited to hundreds more large goods vehicles blocking the roads up. I strongly object to this on these grounds.
