Type of Comment	Objection
Comments	At a time when both the government and society in general are looking at green solutions to both waste and energy generation, having a polluting, white elephant of a project go ahead is, frankly insulting. Many of these projects, when given the go ahead, have both over ran, and over spent. In some cases never making completion (i.e Charlton Village, Surrey). Arun should be approving and sponsoring green solutions, as opposed to perpetuating the production of airborne pollutants.
