Comments	I strongly object to the proposal for the Ford circular technology park. I am extremely concerned about several issues. Firstly, the risk to health for local people, not just from the facility itself but from the increase in pollution from the increase in heavy goods lorries on our roads, especially near the level crossings in Ford and Yapton where the queues are already a problem. The size of this facility will be an eyesore to the local area causing a massive negative visual impact to an area that is already being destroyed by the numerous new housing estates. Finally this facility will be bringing waste from miles away discouraging recycling and causing more unnecessary journeys from lorries and more pollution. This is not needed and I believe should be strongly opposed.
