Type of Comment	Objection
Comments	The toxic chemicals from the plume will affect many children and older people with respiratory problems as well as being generally unhealthy. The roads around this site are already overcrowded and will be adversely affected by this development. I don't believe the few jobs created by this plant will balance the general deterioration of health to residents in surrounding areas and as an older resident of Felpham, I believe it will affect our quality of life. With Covid a continuing problem In our lives, the last thing we need is poorer air quality.
