Objection

"an absolute travesty" "We have endured this for nearly 20 years. The smell, the odor and the litter means that we cannot even remain in our homes or entertain our guest. We cannot even live in peace because of the noise. "It is an absolute travesty, this decision has been made by councillors who clearly do not understand the situation and do not understand the facts that were put forward. This is just some of the reviews from other areas I do not wish to have this in a village I moved from a city to lead a peaceful clean life and this is a disgusts idea as there are vast more areas in the middle of nowhere not on top of villages. My main concern is health. I work within a respiratory company who supply's oxygen. The harmful gases which are released from sites like this are a contributor to the reason respiratory issues arise and also inflame conditions. Why would you make people of this county suffer? Please listen to all the objection and take a big look how beautiful this area is. I travel vast areas to deliver oxygen and there are much more suitable areas. And a lot of areas which remain untouched but the 21st century always are admired.
