| Comments | <p>I am very dismayed to see you are proposing to build this "Park" on my doorstep so to speak. I moved here 7 weeks ago for the lovely countryside, community spirit and fresh fields etc. This is a monstrosity in a beautiful area. How can you build such a "park" so close to homes and schools. With a huge chimney pumping out goodness know what into my local atmosphere. I cannot believe you propose this with all the increased traffic of lorries each day and you propose to build more homes here so how can the two possibly go together. I would appreciate someone telling me how this is possible in this age when we are trying to have cleaner energy and you have this huge "park" to use the term loosely pumping out all these fumes. Why call it a park in the first place. Very misleading. So I object in the firmest possible way and am shocked such a scheme has been allowed to get so far.</p> |
