## Comment for planning application WSCC/011/21

Application number Name	WSCC/011/21 john cassford
Address	BEAGLE DRIVE, 25, BEAGLE DRIVE, ARUNDEL, BN18 0NY
Type of Comment	Objection
Comments	The Applicant has not given details of extra traffic due to the enlarged facilityis it 5 times as much? The proposed buildings are still massive and not in keeping with the landscape adjacent to Arundel's heritage architecture. The emissions from the facility have not been specified or quantified. Noise types and levels have not been specified (from the site, and from lorries). Even if you could not see it if it was screened with trees, lorries could be arriving all the time, and on a permanent basis, not like gravel extraction, where eventually the site would reach an end. Once animal habitat has been destroyed wild-life does not come back, and the animal food chain breaks down. The proposed development diminishes the scope of future leisure development, and indeed housing.
