ent for planning application WSCC/011/21
WSCC/011/21
Justin Lanchbery
Objection
I strongly object due to not wanting to live near an incinerator. I do not want one near my house and there are plenty of areas where it could be better placed. Thinking about our carbon foot print, this goes completely against being environmentally friendly. Choosing to build this in a community that is growing of young families is a poor proposal.
