Comn	ient for planning application wSCC/U11/21
Application number	WSCC/011/21
Name	Tony Ricards
Address	Woodburners Yapton Road Clymping.
Type of Comment	Objection
Comments	My thoughts and comments are exacting as for the previous Grundon/ Viridor application for their grotesque ERF - it's not required and not wanted by the local residents. Rehashing the application with a few cosmetic changes is ridiculous and doesn't change the main premise. This system to produce energy is one of the dirtiest ways , second only to using coal. I am sure most of the other objectors will detail all the millions of reasons that the location is totally wrong especially with regard to all transport links and inadequate roads in the area. However this application is redressed and represented it is JUST A NON STARTER. PLEASE REJECT IT.
