Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Julie Croucher
Address	APPLE TREE WALK, 31, APPLE TREE WALK, LITTLEHAMPTON, BN17 5QN
Type of Comment	Objection
Comments	My objections are: - unsuitability of the location (flat coastal plain surrounded by farmland, small villages, and the close proximity to the planned new housing) - scale and height of the building (extensive visual impact, even with the new solution this equates to a building of 13 stories) - increase in traffic movements (scale of impact, they estimate 240 hgv's a day, in an area that is already overwhelmed at times by traffic levels, without the traffic from the additional c2,000 houses being built) - unsuitable local road network, Ford Lane/Church Lane is a single road narrow road, unsuitable for hgv's I would also question: 1) the need for this facility at all, does West Sussex actually require this additional capacity to deal with its own waste, especially in the light of the recently approved new site at Horsham? 2) the suitability of burning waste to create energy in a rapidly evolving energy market and the government's intentions to develop more green forms of energy?
