Comm	ient for planning application wscc/011/21
Application number	WSCC/011/21
Name	Carolyn Goodliffe
Address	20 Appletree Walk Climping
Type of Comment	Objection
Comments	I am totally AGAINST the incinerator being built in this beautiful countryside with the South Downs National Park and picturesque Arundel on one side and the coast on the other. Ford Road is totally unsuitable for the thousands of lorries that will be hurtling along the country road annually. Make no mistakelorry drivers DO NOT drive slowly or carefully. I see it already with the lorries that go to Rudford Industrial Estate. There is so much new housing planned for this area so with a lorry a minute added to this our roads will become gridlocked. Not to mention the eyesore of the huge chimney and building and the emissions that will blast out into our area. These incinerators should be built near a motorway to cause as little inconvenience as possible.
