Both my husband and I objected to the first application no the grounds that the incinerator was too high and the amount of traffic along Church Lane would be a nightmare not to mention the health and environment issues. We feel very strongly that Climping is becoming a very congested village. I have to cross Church Lane every day and it can take up to 10 minutes to try and cross this very dangerous road due to very high volume of traffic using this road. This development will severely blight what green open spaces we have. Both My husband and daughter have both had near misses with their vehicles trying to navigate existing horsemere green lane onto Church Lane. We strongly object.
