Address	PARK DRIVE, 5, PARK DRIVE, ARUNDEL, BN18 0JF
Type of Comment	Objection
Comments	Yapton has already incurred so much change and housing, to then create such a monsterous, smelly, disgusting eye saw is completely heart breaking and disappointing. I grew up in this beautiful village and surrounding villages, it's completely devastated me that we have lost our country side. Not only will this cause an awful smell around the local villages but also cause health issues and distort even more wild life. Don't you think this village has endured enough with 6 housing estates being built at the SAME TIME!! With extra transport from the new houses with in an active community the roads can't take anymore, they are small country lanes not built for heavy duty lorries passing through. I can't even walk to my relatives house with out worried about a lorry mounting a curb trying to fit through the village along with speeding. Over all my main concern is pollution over the villages and the heavy traffic this is going to cause. Also to add the disgusting eye saw with how tall this incinerator is
