Dear Sir/Madam

I am writing to register my objection to this revised plan (WSCC/011/21) for a number of reasons.

Air pollution is an increasing problem in the area, in particular with the number of new homes being built and the associated traffic. This site will make things significantly worse and this is simply not acceptable.

The roads around this area are barely suitable for the volume of vehicles that already use them. The additional site traffic, in particular of a heavy goods nature, cannot be safely accommodated.

Lastly the noise and smell pollution from a site situated so close to residential property should not have to be tolerated by anyone. This entire proposal is badly thought out and needs to be taken elsewhere.
