Dear Planning,

I am writing to object to the application WSCC/011/21 in the strongest possible terms.

I simply can't understand why something new would be based around such outdated technology.

To have something this high ruining the landscape creating an eyesore simply shown't be allowed. Something so tall and ugly would be far too dominant.

What we actually need is lots more housing in the area, which this new application can only have a detrimental affect on.

I would do anything I could do to stop this application from going ahead.

Best wishes

Tom Baker
