Hi,

I've CCed Jacky Pendleton as her name is on the planning application as County Councillor

My only comment is to ask why has the opportunity not been taken to replace the Littlehampton and Bognor Regis residential recycling sites with a properly sized and fully accessible site at Ford.

To do so would mean:

- a. Proper access for larger vehicles and those with trailers like myself – I am forced to go to Chichester.
- b. Massive reduction in transport vehicles and costs as there would be no requirement to transfer waste from those sites to this new site.
- c. Remove traffic congestion which currently occurs on Shripney Road and around the Littlehampton allotments
- d. A joined up service for the southern part of the county

Regards,

Jerry Hone
