Comments	<p>It will have too much impact on the near roads as these are already clogged up on school runs, peak times for work. Heavier lorry/truck traffic with 24 hour dropping waste at this site, noting noise pollution also. The structure is still too large for the areas landscape & my main concern is the pollution on the environment & to us. This type of waste site should be near to a main city to kept the pollution where its caused - cities. This is not the area for such a plant of this size. I 100% object.</p>
