Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Dan
Address	JOHNSON WAY, 43, JOHNSON WAY, ARUNDEL, BN18 0TD
Type of Comment	Objection
Comments	Firstly why has this been submitted once again with minimal changes. This is by far from needed in this area, we already have masses of noise pollution in our area let alone this! Myself and a fair few of my neighbours have young children being brought up in the area I'd rather not have them breathing in potential air pollution close by. Bad enough with the area being over populated as it is and yet thousands of more cheaply built terrible houses being built close by not only that but has any consideration been taken in at all regarding the traffic chaos this is going to cause?!! I am by far the last person to object any business expansion in our local area as I run a local business myself and also come across things like this but there has to be a better location for this than a very small village that does not need turning into a constant noise and air polluted village that no one will want to live in for much longer. We have a world crisis regarding eco friendly rubbish pushing electric cars etc left right and centre and yet this is actually being proposed?! Local government must be completely mad to even consider this application! I and many others 100% object this idea, if I wanted to live in a place like this I would of brought a house in the middle of a mass polluted industrial estate. Maybe the people planning this should think more closely of there own children and grand children about the effects this would have on there local area, take it somewhere away from houses not within a mile
