Comments	I strongly object the the above application on the following grounds: 1. The potential harmful output into the local atmosphere will be a health hazard. 2. The impact on the local area will be devastating not only for the wildlife but also for the trees and vegetation. 3. The additional traffic this proposal generates will add tons of harmful emissions to the local atmosphere and inevitably lessen road safety. 4. The effect this proposal will have on the character of the beautiful local landscape is devastating.
