Comments	This incinerator cannot be allowed to be put at Ford. The surrounding areas are way too populated. This is insane to allow such an incinerator to be installed. I have been reliably informed that those who live 3 miles from the incinerator will suffer the most from the pollution, that is where I live. I most strongly object to this. Also, Ford Road cannot cope with the lorries that would be travelling there on a regular basis. This must be stopped!
