Comment for planning application wscc/011/21	
Application number	WSCC/011/21
Name	Clare Caldecott
Address	5 May Close, Climping, West Sussex BN17 5TF
Type of Comment	Objection
Comments	I strongly object to this proposed development as with an already struggling local road system unable to mange existing traffic, any additional commercial traffic would cause problems to the local roads. The unpleasant smells already coming from a local waste recycling plant makes sitting in your garden difficult at times, any further odours could make it worse still. We chose to move to a coastal town for cleaner air but this would mean added pollution being in the air we breathe which is unacceptable. The beautiful rural aspect of living in Climping is gradually being ruined by all the development, yet another beautiful English village unnecessarily being over developed.
