Comments	I strongly object to this horrendous proposal. We moved into this area nearly 3 years ago and love it here. It is heartbreaking to think that our lovely countryside could be completely ruined by such an abomination . The roads are not built for heavy traffic ,which in already getting worse. The air that we breath should be fresh and clean (that should be a birthright)! We would no longer be able to say that we live in such a beautiful part of the country if this proposed incinerator went ahead. This MUST NOT go through planning!
