Comment for planning application wscc/011/21	
Application number	WSCC/011/21
Name	Irene Trice
Address	38A, NORTH LANE, NORTH LANE, LITTLEHAMPTON, BN16 1HW
Type of Comment	Objection
Comments	I strongly oppose this application. The area area is vastly populated and the road networks are struggling with the amount of daily traffic without filthy lorries accessing the site adding to the congestion . I am concerned for the health of all of the residents in the surrounding areas who will be subject to all the air pollution from the site. It is totally unacceptable. It is an insult to all the people of Arun to put them in this dreadful situation. Thousands have houses have been built locally and if this application goes through those people will lose money on the value of their properties and will not be able to sell with a blot on the landscape on their doorstep. This must be stopped.
