Comments	This is an unacceptable impact on residents, health and wellbeing. A blot on the landscape for years to come in a rural area at the foot of the southdowns. Local countryside infrastructure will be turned into an urban causeway generating huge lorry movements at speed creating even more safety hazards and environmental hazards. Existing waste recycling lorries already travel at speed on our small carriageways sometimes creating so much down draft it almost knocks you off the pavement. This facility takes no prisoners. Whats in it for our local 'villages'? Whats in it for West Sussex? The wrong decision given now will have a huge detrimental impact on the future of existing residents or those that would like to choose to have a rural lifestyle. Years of pollution, noise, heavy goods vehicles ruining local roads, house price devaluation. The wrong facility in the wrong place. There are more efficient and cleaner ways to deal with waste. No thank you.
