Comm	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	Phillip Webb
Address	THE MILLERS, 9, THE MILLERS, ARUNDEL, BN18 0LE
Type of Comment	Support
Comments	We fully support this application because it is the most sensible location, next to the waste sorting plant, it does not adversely affect the environment any more that sending the rubbish to a landfill site. The design is much more compact than initially and the narrow chimney would hardly be visible. Furthermore, there would be much less residual waste to go to landfill or used in construction.
