Comment for planning application WSCC/011/21

Type of Comment	Objection
Comments	I object to the toxic air pollution this will produce. It will cover a large area, depending on wind direction, and will be detrimental to the health of the people living in a huge radius from Worthing to Bognor. I object to the number of lorries which will need to use the already congested local roads. The building is still larger than Battersea power station and is not compatible with the rural location.
