Type of Comment	Objection
Comments	This incinerator will spread unseen toxins in the air in the larger area from Ford, affecting the population. There are schools nearby and the children using the playgrounds could have breathing difficulties triggered. The roads will struggle to take the extra lorries that will access the site. They were not built for the amount of traffic that this site will bring and as well as congesting the local traffic, which is already at capacity, will cause the break up of the road surface. This will cost the taxpayers money that could have be spent elsewhere. There are too many traffic accidents in the local area already. Extra congestion will make travel around here so much worse.
