Type of Comment	Objection
Comments	Just 3 years ago, our government was considering a tax on waste incineration as it was recognised as a very polluting and outdated solution to waste disposal yet here we are 3 years later with plans to build in our area. It is madness! I imagine that tourism in the area will suffer as I certainly would not want to visit anywhere that has an eyesore incinerator kicking out terrible pollutants and awful smells! The surrounding roads are not fit to cope with the increased levels of large lorries that will be used once it is built, we struggle daily as it is.
