Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	David Robinson
Address	BILSHAM MANOR, BILSHAM LANE, BILSHAM LANE, ARUNDEL, BN18 0JX
Type of Comment	Objection
Comments	I wish to object to this application in the strongest possible terms. The huge and high building and chimney will be visible for miles around, the potential for toxic fumes and smell will be great and the entire project will be based within an area to form a major new residential district. Located within about half a mile from the sea to the south the catchment area it will serve will be only about 180 degrees radius compared to a site located further inland. Also, the roads in the vicinity are totally inadequate to accommodate the substantial increase in HGV traffic both off the A259 and north towards the A27. There is extremely strong local oppositional to the proposal and the views of the local electorate MUST BE RESPECTED. Please refuse this totally inappropriate application.
