Type of Comment	Objection
Comments	I object to the proposed incinerator for the following reasons; 1. the huge increase of HGV's on already busy single track roads over 200 per day from 6am till 8pm 2. the visual impact from the surrounding countryside would be devastating this is not an industrial center but a rural coastal plain 3. This facility is liable to have a detrimental effect on the value of housing stock locally with the planning department unable it seems to refuse any applications for house building in Yapton, Climping, Barnham and Ford with new developments less than a mile from the proposed site. 4. There is obviously not a need for this plant as they are going to take waste from a large catchment area bringing it by road from over 60 miles so the traffic impact will be widespread 5. generating energy from burning is one of the worst methods might as well burn coal 6. claims that it will generate jobs will be short term during construction it will take few to run this plant about 40
