

# Comment for planning application WSCC/011/21

Application number	<input type="text" value="WSCC/011/21"/>
Name	<input type="text" value="David Martin Wills"/>
Address	<input type="text" value="5 NEW ENGLAND WING, TORTINGTON MANOR, FORD ROAD, FORD ROAD, ARUNDEL, BN18 0FB"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="1. The proposed location is totally unsuitable being next to a proposed large housing development. 2. The buildings and chimneys are simply enormous and will be visible for miles, including from the South downs National park. A genuine 'blot on the landscape' on the flat coastal plain. 3. The operation will generate huge numbers of additional lorry movements (expected up to 400 per day, possibly more) which the current road system cannot cope. 4. The immediate and only access roads are Church Lane and Ford Road which are narrow single carriageways and are wholly unsuitable and dangerous 5. The Incineration process itself will produce noxious and hazardous emissions which will be locally harmful. Furthermore, incineration is now considered one of the dirtiest ways of creating clean energy. In summary: The facility is inappropriately located and is not even required to deal with waste produced in West Sussex so it is unnecessary, in the wrong place, and the wrong type of process for dealing with waste and so is environmentally unsound and damaging. The application is wrong in all material respects and must be rejected outright."/>
