Comment for planning application wSCC/011/21	
Application number	WSCC/011/21
Name	Adrian Merrett
Address	RODNEY CRESCENT, 30, RODNEY CRESCENT, ARUNDEL, BN18 0DB
Type of Comment	Comment
Comments	Would it be possible to get responses to the following questions regarding this development. Would the amount of HGV's using the site be likely to increase or would planning permission need to be sought? What nuisance control measures for dust, noise traffic etc will be in place and who will police the site? How much extra traffic can be expected on our roads during construction? What measures will be in place to ensure HGV's do not access/ egress to the site from the North? Why was a visual impact study not undertaken from Rodney Crescent? Will the capacity of the Church Lane/ A259 Roundabout be increased before construction works start? Has the Ford market/car boot sale traffic been taken into consideration for the days that they operate and the extra vehicles generated by these? With Covid restrictions being slowly lifted could an updated traffic survey now be carried out instead of relying on one from 2018?
