## Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Nicola Gerrish
Address	40 Skylark Way Barnham West Sussex
Type of Comment	Objection
Comments	The reasons for my objection to this application and proposal of this treatment facility is air pollution and additional traffic created from HGV's and the hazardous impact that would have on the narrow roads surrounding this facility. The extra vehicles would be detrimental to the surrounding villages.
