Collin	ient for plaining application wscc/011/21
Application number	WSCC/011/21
Name	Dawn Elizabeth Ford
Address	NELSON ROW, 44, NELSON ROW, ARUNDEL, BN18 0DD
Type of Comment	Objection
Comments	1. Unsuitable development for the area, too large will ruin landscape and historic veiws of Arundel and the Arun valley. 2. Will ruin the outlook of the 1500 new homes planned for the area. 3.Does not fit with the historic buildings close to the site and Nation Park. 4.Will produce dust particels and fumes for the surrounding areas and produce carbon emmissions for the next 30 years at least. 5.The building design is too big for the area and the smaller previous approved design is more suitable. 6. Traffic and larger HGV will result and the local roads are not suitable for this traffic. 7. It is too close to the housing development and will blight them with noise working large machines 24/7. 8. The building is out of character with the local area designated for 1500 new homes. People need housing not this polluting monster.
