Comments	I object to the revised plans at Ford. There are a number of developments happening in the local area (1500 homes at Ford, 300 in Climping, numerous in Yapton, a potential crematorium on the A259 etc). We cannot possibly add yet more lorries/ cars and road traffic, to what are already congested roads. This is why it is so important to look at this holistically. I cannot see how the proposed 100's of lorries travelling to and from the facility will work. There is simply not the road structure to cope. We mustn't look at these applications in isolation. I also object on the grounds of the increased pollution that these vehicles will emit in what is predominantly a residential area. Furthermore, I object to the increase in litter that these vehicles will leave. Church Lane is already awash with litter from the tip/recycling vehicles. This will increase with this facility. Lastly, o do believe this structure to be far too dominating in the landscape. Lastly,
