Comments	<input type="text" value="The building of new houses and an incinerator are not compatible. What it's supported at a local referendum was the creation of new houses and schools. No local need for more incinerators that they will actually harm recycling. Let's face it an incinerator it's not green energy. So disappointed in our local council. The damage in our air quality will be monumental. We are all trying to do our bit to save the planet. Please, help to secure the health of our children."/>
