

Comment for planning application WSCC/011/21

Application number

WSCC/011/21

Name

Clive Slater

Address

1 RIVER MEWS, RIVER ROAD, RIVER ROAD, ARUNDEL, BN18 9EY

Type of Comment

Objection

Comments

I am incensed by the plans to erect this eyesore of the most grotesque proportions on our beautiful landscape. What can possibly have possessed people who are supposed to have the interests of local residents at heart to even consider this appalling idea? What possible benefits can this bring to our community? Certainly none that I can see. This whole area is an area of outstanding natural beauty which we should be proud of and protect. To even think about destroying it with the construction of an industrial scale monstrosity with no visual or aesthetic quality whatsoever beggars belief. In addition to this proposed assault on our visual senses there is also the noise, smell, air pollution, light pollution, congestion and many other disgusting consequences and side effects that will impact on the everyday lives of people in the Arun Valley and surrounding areas. This application must be dismissed without hesitation and all the time and effort wasted in its conception and consideration should be recycled into ideas that will benefit rather than damage and destroy our community, climate and local ecology. Planning should represent people before profit.
