Comment for planning application wSCC/011/21	
Application number	WSCC/011/21
Name	carol hatton
Address	CHURCH LANE, 251, CHURCH LANE, LITTLEHAMPTON, BN17 7QJ
Type of Comment	Objection
Comments	I most strongly object to this monstrous application. Not only do we not need this incinerator, the government is implementing plans to cut emissions, and this edifice will only add to them. They will sweep over the Arun Valley on the prevailing winds, and pollute our air. The visual impact would be devastating. It is proposed to be built among a housing estate which is still in planning. Who in their right minds would want to live next to this??? The current incinerator has encouraged vermin which the company have repeatedly failed to control, causing great distress to local residents and a health hazard to those living close by. I have no doubt that the new building would further encourage gulls and rats, and how ever much they promise to keep these things under control, they just fail. The Arun Valley is a beautiful part of this county, and erecting this vile and unnecessary facility will damage the aesthetic beauty of our area. It is only being built through greed. Please, please do not sanction this.
