| Comments | <input type="text" value="This is the most ill-considered project. Not only will it blight the countryside. This will harm air quality especially for the poor people who bought houses recently or in the past with a wonderful view. Ford road is under pressure NOW the first part from A27 is 1 lane due to cars parking. The proposed cycle lane will be blighted, who wants to cycle with huge lorries carrying whatever. Dangerous too."/> |
