Comm	ient for planning application wscc/011/21
Application number	WSCC/011/21
Name	Sian Lewis
Address	CHURCH LANE, 250, CHURCH LANE, LITTLEHAMPTON, BN17 7QJ
Type of Comment	Objection
Comments	This proposal is completely unsuitable for this area, especially given the already strained local road system. The impact on our local natural environment, for plants and animals, will be devastating. This proposed building is totally out of keeping with the local landscape and the character of the area. The dust/odour/fumes generated will harm human and animal health for many miles around this proposed development. In Lyminster we will receive the majority of fumes and air pollution from this monstrously huge building. I objected before and I strongly object this time too.
Daniel Const
