Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	Chris Rendle
Address	Wicks Farmhouse Ford Lane Ford
Type of Comment	Objection
Comments	a 13 story building and two 28 story towers will have a terrible impact on the surrounding views. It's one of the worst ways to generate energy at a time when we are trying to reduce the surge of climate change. Emissions include dioxins, NOx and ultrafine particulate which can be harmful to human health and the natural environment. I believe this proposed incinerator will risk the deliverability of much needed housing and a school . Everyone I talk to seems to thnk its a bad idea and Iagree!
