Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Karin Beadell
Address	Little Sarpsborg Barn Lane Shripney Bognor Regis PO22 9NY
Type of Comment	Comment
Comments	This isn't fitting within conservation areas nearby. The air quality will severely decline causing health issues, especially with those that already suffer from lung diseases. An incinerator will be going against improving air quality. The local roads can not cope with the additional traffic especially not a constant flow of large heavy lorries. No one will want to live in area of poluted air, with the thousands of new houses planned for this really this really shouldn't go ahead.
