Comments	I object to this facility being built on a little country lane that is so incredibly high that it will be seen in Chichester, at least 10 miles away. Incineration is, in any case, a barrier to the circular and sensible economy of recycling which should be clearly explained to the public. The emissions from this facility will be toxic and there are already a lot of new houses to be built nearby! Yapton Lane in Walberton already has an enormous number of large lorries daily going to and fro and they frequently, daily in fact, get held up at the Yapton level crossing which, I understand, is closed for 40 minutes of every hour!!! Many of the vehicles to and from this incinerator will, of course, pass onto Yapton Lane making things worse. PLEASE, PLEASE listen to what local people have to say because frequently we are all allowed to comment BUT in the end whatever it is just gets approved anyway which is SO WRONG. Thank you.
