Collin	ient for plaining application wscc/011/21
Application number	WSCC/011/21
Name	Amanda Guttridge
Address	FORD ROAD, 29, FORD ROAD, ARUNDEL, BN18 9DX
Type of Comment	Objection
Comments	I object to this planning application. Ford Road is extremely dangerous and already has an unacceptable volume of traffic which creates too much noise, pollution. Anyone using the pavements or parking outside their homes is facing a daily hazardous nightmare. Even cyclists have to resort to using the pavements because the road is so unsafe. On top of that the levels of incinerator pollution will present a health hazard to the local population. The building of this incinerator within a National Park within a historically important area is inexplicable. Burning rubbish is antiquated. Plastic eating fungus producing food as a by-product and other more environmentally sound ways of disposing of rubbish should be explored to try to turn local rubbish into a economically useful source for the good of the planet.
