Objection

Dear Sir, I would like to register my objection to the SAVRI Arun Valley Rubbish Incinerator on the following grounds: 1. Increase in traffic especially along Ford Road and the chicane at northern end. The road surface structure in West Sussex is already crumbling under the volume of traffic. Journey times in the local area will be increased as large lorries converge on Ford. 2. The incinerator and its chimneys will be an eyesore visible for a large local area but also from the South Downs National Park. An area of outstanding natural beauty will be ruined. 3. Burning of waste does not encourage recycling. 4. There will be a reduction in air quality affecting large areas of West Sussex and Hampshire. The release of dioxins, NOx and other particulates will have a detrimental affect on health and the environment. There is no effective monitoring of such pollution at ground level or higher levels downwind of the facility. 6. The UK is already becoming self-sufficient in wind and solar energy that any energy generated is negative. 7. If energy were the driver for approval the tidal flow of the Arun River could potentially more energy in an environmentally friendly way.
