

Comment for planning application WSCC/011/21

Application number	<input type="text" value="WSCC/011/21"/>
Name	<input type="text" value="Susan & Richard Craig"/>
Address	<input type="text" value="CHAPINS, KINGS ARMS HILL, KINGS ARMS HILL, ARUNDEL, BN18 9BT"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>My husband and I are totally against the Arun Valley Rubbish Incinerator planning application. 1) Incineration is one of the worst ways of generating energy because of its effect on climate change! 2) West Sussex has enough incineration sites with planning permission to meet its needs. 3) An incinerator of this size close to an Historic town and vulnerable wetlands is unacceptable! 4) The visual impact of the 13 storey high building visible from as far away as Chichester, close to the South Downs national Park and the coast line along with the Historic Town of Arundel is totally unacceptable! 5) The access roads to the site through Ford Road is already a road unable to take the everyday traffic. It is mostly a single lane with parking on one side and before long a child will be killed on this strip of road and the Council will be sued. Please take this as a warning from someone who travels this road at least twice a day. Surely in light of the current climate laws and the countries that have been asked to CUT BACK...WHY are we building such a huge monstrosity that will harm the air quality for local residents and the countryside. We are firmly against this project going through. Susan & Richard Craig</p>
