Comments	Whilst it is accepted that the incinerator is needed it is huge and will have a massive impact on both the country side and growing populous. Where the site is proposed, there is also a proposal for 1500+houses, 2 schools, a retirement home, shops, etc. How can this be safe with huge lorries 24/7 and emissions and pollutants being spewed literally a few paces away. The size of this building is immense and will affect most residents of the Six Villages, Littlehampton and certainly Arundel. Visitors to the castle currently enjoy views over the coast; that'll stop! Please consider siting this building in an area where it will have less affect.
