Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Emma Taylor
Address	25B, KING STREET, KING STREET, ARUNDEL, BN18 9BJ
Type of Comment	Objection
Comments	I would like to raise my concerns and STRONGLY object to the above proposal How can this even be considered? The visual impact of a 13 story building will be highly detrimental and will do nothing but have an adverse affect on the South Downs National Park! The sheer size of this proposed development is in total contradiction to the surrounding area. The environmental impacts of this proposal are enormous and in an age where we are supposedly trying to do all that we can to reverse the impacts of climate change how can this plan be justified? We simply do not need further incinerators, West Sussex already has ENOUGH, The emissions that will be generated will be nothing but harmful to both human health and our environment Please also consider that our local small roads will not be able to cope with the increase of traffic volume from unsuitable HGV's traveling to this site The location is clearly not a viable option!
