Comment for planning application WSCC/011/21

Type of Comment	Objection
Comments	Although I understand that waste needs to be dealt with I do not believe that this facility is fitting. I have experience of an incinerator close to my parents home in Beddington, Surrey which is hideously ugly- even in a built up area land the carbon emissions are far from the promised amounts resulting in calls for the facility to be shut down. A unit of this size would really be a blight on beautiful landscape of the area, not the mention the plume of smoke/steam that will be emitted.
