Comments	<input type="text" value="This proposed development cannot be permitted to go ahead. It will destroy the local area of natural beauty. Property prices will reduce and will cause additional commercial traffic which local road networks simply will not cope. In turn this will create more pollution which we are currently trying to reduce. The whole idea is a disaster waiting to happen. The Arun valley is a delightful region and must remain that way. Save our countryside! Not destroy it!"/>
